

# e Business PRO

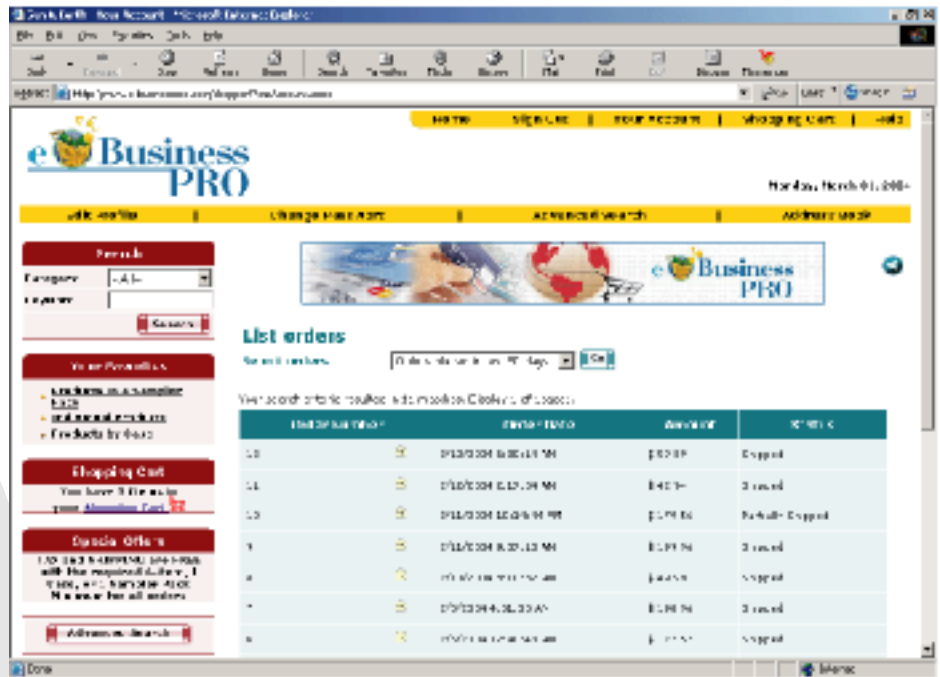

Do you wonder what it would take to get your organization into the exciting world of e-Commerce? Are you concerned with all the costs associated and the complexities involved in implementing an e-Commerce solution for your organization? E-SoftSys can help your businesses get set up quickly into the 'wired' world with e-BusinessPro in a cost effective manner.

e-Commerce success is all about enhancing the relationship between your organization and the shoppers, giving shoppers additional options to continue shopping and providing them access to your online store 24 hours everyday. The results of which are significant, because you can reach to a wider shopper base, increase shopper's loyalty and your profits.

e-BusinessPro, an e-Commerce solution from E-SoftSys allows your businesses to provide additional services to shoppers by selling products online 24 hours a day, 7 days a week. By providing shoppers to purchase items online, your business will increase revenue and shopper's loyalty!
